**Definitions and Comments:**

lunar triple - 3 total lunar eclipses in a row (total lunar eclipses are also called "Blood Moons")  
lunar tetrad - 4 total lunar eclipses in a row with all 4 eclipses falling on Jewish Feast Days  
midpoint triple and tetrad - the middle date between the beginning and ending dates of each triple and tetrad  
- this is significant in that it shows all three of the tetrads are in the exact middle - to the day - of their lunar triples  
the 2010 - 2019 lunar triple encompasses the 9/29/2011 Virgo constellation where it is "clothed by the sun with the moon at her feet" on the Feast of Trumpets, and the 9/13/2015 Feast of Trumpets where the Virgo constellation is "clothed by the sun", but now the moon is with the sun

the 2010 - 2019 lunar triple also encompasses the Jewish holiday of Hanukkah 12/3/2018, commemorating the victory of the Maccabees over Antiochus Epiphanes the future antichrist-type. 1/6/2015 is Epiphany - celebrating the Magi's acknowledgment of Jesus as King, Priest, and Sacrifice. Hanukkah 2018 is exactly 1,335 days (Dan. 12:11) from the exact middle of the Feast of Passover (4/8/2015).
